QTY	U/M	DESCRIPTION	\$ per U/M	Total
2	ea	<p>1-1/2" to 20" Size Range Circle Style Setting Master; Model: DF-2 (Surplus)</p> <p>Detailed Item Description Also known as: Plate Setting Master for setting Johnson Gage GH-5 Internal and/or Johnson Gage GH-15 External Screw Thread Measurement Systems. If you are setting your Johnson Gage Screw Thread Measurement System on Plain Ring/Plug Master Gages, then this is a direct replacement for those masters. Because of its nearly infinite adjustability, this Circle Style Setting Master can replace multiple large diameter plain master ring/plug gages. The Plate Master is designed with six equally spaced individually adjustment points around a central diameter. The adjustment points are used in sets of three. One set used as a functional master and the other set used as a pitch diameter master. The Plate Master will make your Johnson Gage Screw Thread Measurement System more versatile and more cost effective. The Johnson Gage Circle Style Setting Master is size adjusted using a gage blocks.</p>	2,595.00	5,190.00
